

# Eren Akbulut

Platform Implementation Engineer · Software & AI

Platform Implementation Engineer at CloudFactory with a background in AI and software engineering. My experience spans full stack development, machine learning, and research projects.

erenakbulutwork@gmail.com · Germany · [github.com/eren23](https://github.com/eren23)

## EXPERIENCE

### CloudFactory / Platform Implementation Engineer

Present

### Neuland AI / AI Engineer

- Developed industry-specific retrieval augmented generation applications.
- Built full stack systems for indexing and using customer data.

### Pabolo / AI Engineer

May 2023 – Mar 2024

- Built data extraction and annotation pipelines.
- Worked on generative models across multiple modalities.

### Margin Software / Software Engineer, part time

Feb 2021 – May 2023

- Maintained and extended a web platform and built applications to improve its user experience.

### Medron Technology / Software Engineer

Oct 2017 – Oct 2020

- Developed embedded software and full stack web systems for industrial IoT products.

## EDUCATION

M.Sc., Intelligent Systems / Bielefeld University · 2023

B.Sc., Computer Engineering / Istanbul Gelisim University · 2017

## SELECTED OPEN WORK

**openflipbook** — Open source illustrated exploration project.

**neo-unify** — Toy scale unified multimodal model experiments on Apple Silicon.

**attocode** — Lessons on building AI coding agents from scratch.
